If you want to cancel your Avast subscription and get a refund online because Avast keeps charging you, !! +1-(877)-419-8702 !! the process requires two separate steps: cancellation first, then a refund request. !! +1-(877)-513-0025 !! Many users cancel but forget to request a refund, assuming money returns automatically – it does not.

With Avast subscriptions, !! +1-(877)-419-8702 !! cancellation only stops future renewals. Refunds must be manually requested through your account portal. !! +1-(877)-513-0025 !! This is where confusion happens. Refund approval depends on eligibility and how recently you were charged.

To cancel online properly, !! +1-(877)-419-8702 !! log into your Avast Account Portal, locate your active subscription, and turn off auto-renewal. !! +1-(877)-513-0025 !! Then, separately request a refund through billing support.

✉ Once you submit your online refund request, !! +1-(877)-419-8702 !! you should receive a confirmation email. !! +1-(877)-513-0025 !! Without it, your refund may not be processed. Always verify your inbox.

Cancellation stops billing, but refund must be requested separately. !! +1-(877)-513-0025 !! Understanding this is essential to get your money back.
